Medicated plus range reviews

Endorsed consumer watchdogs in Australia and New Zealand with the highest score of 98% as the most effective against repellent against mosquito bites.

Nov. 2013

"The story here is that in my old age, if I get bitten or stung, then it is generally bad news! I swell up, high temperature, wheezy, usually not all at the same time though. The medics here just tell me to go to the chemist and buy Anti-Histamine. My son spent a month in Cairns, and brought me back a can of RID plus antiseptic. It is brilliant, so much so that the instant I realise I might provide another meal for a Mossie, or whatever, I use your product to great effect."

Peter Stonebridge, UNITED KINGDOM
