Tropical Strength range reviews

More than 6 hours' worth!

"I bought the strongest tropical strength to use in Malaysia. The result was fantastic. I had not bitten by mosquito once during my 10-day trip and I was often outdoors! On top of that, I hadn't had mosquito netting installed in my rooms then so there was also a big chance that I'd get bitten inside my rooms. Anyway, I also applied this product on my son's sensitive skin and he never had any reactions. Nope, no mosquito bites on his body either. I actually think it's more than 6 hours' worth. It's a keeper for sure."

Keeps me bite free

"I purchased some RID tropical roll on whilst I was in Australia and found it to be a brilliant product. It is the only product that I have found in over 20 years that keeps me BITE FREE."

Phil Masterton, UNITED KINGDOM

The only insect repellent you should pack

"RID is quite simply the only insect repellent you should pack for your safari or adventure holiday! It has always been our mantra at The Safari Store to only stock the ultimate travel and safari products, products we choose to travel with as they are simply the best. We have been searching for some time now for the ultimate insect repellent. We knew all along what we were looking for, but did not believe that we would find a repellent that actually works against mosquitoes, but which also repels the Spitfire of the insect world, the tsetse fly."

Steve Adams, The Safari Store, UNITED KINGDOM
