

OUTDOOR MOSQUITO COILS

OUTDOOR PROTECTION

NEW Packs NOW with containers for convenience in use outdoors

Burning coils is another ideal way to combat annoying bugs as smoke repels these uninvited guests and almost a prerequisite in backyards and camp sites during summer.

Repels:

MOSQUITOES

LABEL INSTRUCTIONS

DIRECTIONS FOR USE

10 COIL WITH TRAY PACK: READ THE LABEL BEFORE USE. This pack contains 5 double coils and 1 coil stand.

1. Gently separate the coils into two units, starting from the centre. Taking care not to force the coils apart as they may break. 2. Fold the metal stand (which is attached to the metal plate) on an upright position and place on a flat surface. Place the coil securely onto the metal stand. 3. Light the coil outer tip. After use, ensure that the coil is extinguished and properly dispose of any residue. Keep the metal stand for further use.

20 COIL BURNER PACK: Please peel off the label before use. Lift off the Burner cover and remove the Coils. Pull up the metal stand. Starting from the centre, gently separate the Coils and place on stand. Light the outer end of the Coil so that it smolders. It should not burn with a flame. Replace the Burner Cover. Hang or place the Burner within the area you wish to be mosquito free.

NOT TO BE USED FOR ANY OTHER PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED.

SAFETY PRECAUTIONS

For external use only. If swallowed, seek medical

- + Keep away from children, pets and food stuffs. Harmful if swallowed, seek medical advice.
- + Keep in a cool dry place away from source of ignition.
- + Do not place coil near flammable materials.
- + Use with care to avoid fire hazards.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26, New Zealand 0800 764 766.

STORAGE & DISPOSAL

KEEP OUT OF REACH FROM CHILDREN. Store in the closed, original container in a cool dry place out of reach of children. Do not store in direct sunlight. Dispose of empty container by wrapping in paper, placing in plastic bag and putting in garbage.

MOSQUITO COIL PRE-CAUTIONS

- + Only use commercial products that have been registered by Government authorities.
- + Products that contain pyrethroids will provide better protection from mosquitoes than those that contain only botanical extracts.
- + The byproducts of combustion, not insecticides, associated with mosquito coils may pose a health risk in some circumstances.
- + Best to limit use of coils to outdoor or well ventilated indoor areas.
- + Don't sleep next to a smoldering mosquito coil
